WIDE VARIETY OF PLAN OPTIONS FOR COMPLETE FREEDOM FROM LIABILITIES

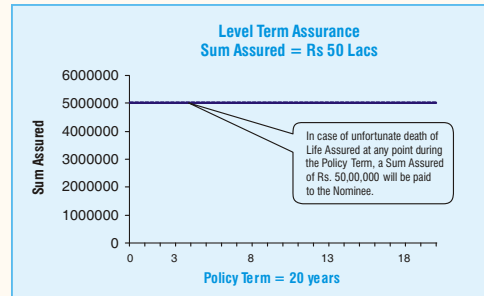

Whatever be your need, we have a plan that best suits it, with the flexibility to choose from the 4 excellent options.

- Level Term Assurance**

If you want to go for a Level Cover throughout the entire term of the plan, then this is just the option for you. And the good thing is that it still comes to you at an extremely affordable cost. To ensure that your family is able to maintain the standard of living that they currently enjoy, you can choose a Sum Assured keeping in mind their requirements.

- Increasing Term Assurance @ 5% p.a.**

You would realize the true worth of this plan with the Increasing Cover Option. Especially when you consider that over time, factors like inflation, a higher standard of living, etc. start putting pressure on your savings. Increasing Term Assurance is ideal if you want to ensure that there is absolutely no compromise on your future plans. This option increases your insurance cover year on year, for a small additional premium. Quite simply, when you opt for an increased cover option, you do not need a fresh policy even if your liabilities increase.

- **Decreasing Term Assurance (Loan Protection)**

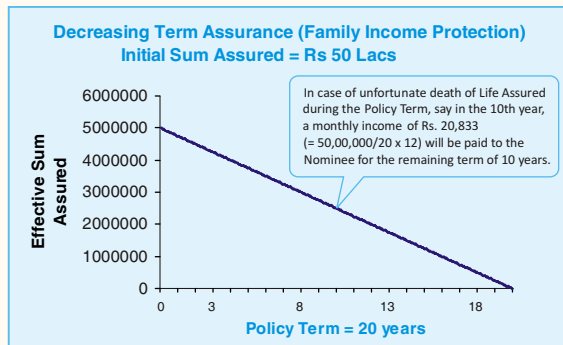

This option is available only if you have taken a loan for buying a house or a car for your family. This option helps to cover the outstanding loan amount as per our schedule and ensures that in case of any unfortunate event, these liabilities do not affect your family. The schedule will be based on an interest rate of loan repayment and available interest rates for loan repayment schedule are 6%, 8%, 10%, 12%, 14%, 16%, 18% and 20%. For example, if you have taken a loan at 8.25% rate of interest then you can choose either 8% or 10% as your rate of interest for preparation of schedule. It comes at a very competitive price and is affordable for the

borrowers, which is designed to help the family repay the outstanding loan and keep enjoying the assets you so lovingly acquired for them. The Sum Assured will be equivalent to the outstanding loan amount, which will be stated in the schedule of benefits, prepared at the time of commencement of cover.

If the loan amount is not in the multiple of 1 lac, you can choose the Sum Assured nearest to the loan amount and in the multiple of 1 lac. i.e. if your loan amount is Rs. 35,75,000 then you can choose either Rs. 35,00,000 or Rs. 36,00,000 as per your choice.

- **Decreasing Term Assurance (Family Income Protection)**

If you want to secure a regular and stable monthly income for your family, this option fits the bill perfectly. Under Family Income Protection Plan Option, the Sum Assured you have chosen will be divided by total term (in months) that you have chosen and the resultant amount will be paid to your family for the remaining month after death as a monthly income. Moreover, your Nominee can ask for the discounted value of the remaining monthly payouts. The discount rate will be declared on 1st April every year and will apply during the financial year. The rate will be equal to a 100 basis points mark up on the 10 years benchmark G-Sec rate rounded to the nearest 25 basis points.
