Group Retirement Investment Strategy

The investment strategy is to invest primarily in Fixed Income Securities such as Government Securities, corporate debt and short term instruments and a portion of the corpus in equities with higher equity exposure for the Unit Linked product.

Investments are made in top quality corporate debt and prime importance is given to duration management with a view on interest rates. Active management policy is followed for both debt and equity market. The Investment strategy for equity shares is based on the principles that lay emphasis on the concept of sound fundamentals, sustained economic earnings and return on investments. Investment in companies will be with an objective to participate in their business model. The endeavor will be to focus on identification of growth oriented business models, competitive edge, industry structure, earnings margin and quality of management.

IN UNIT LINKED POLICIES, THE INVESTMENT RISK IN INVESTMENT PORTFOLIO IS BORNE BY THE POLICYHOLDER

* Funds under Group Linked Insurance products can be surrendered anytime subject to deduction of applicable surrender charges. Please refer to the terms and conditions of your product for further details.
