WTW Opinion on Embedded Value as at 31 March 2026

Willis Towers Watson Actuarial Advisory LLP ("WTW", "we", "us" or "our") has been engaged by SBI Life Insurance Company Limited ("SBI Life" or "the Company") to review and provide an independent actuarial opinion on the embedded value results prepared by SBI Life.

The review covered the embedded value as at 31 March 2026 of INR 807.9 billion and the value of one year's new business written during the period 1 April 2025 to 31 March 2026 of INR 66.7 billion (together, "embedded value results").

Scope of work

Our scope of work covered:

- A review of the model, methodology and assumptions used to determine the embedded value results;
- A review of the results of SBI Life's calculation of the embedded value results;
- A review of movement in embedded value from 31 March 2025 to 31 March 2026;
- A review of movement in value of new business from 31 March 2025 to 31 March 2026; and
- A review of select sensitivities as defined by the Company.

Opinion

WTW has concluded that the methodology and assumptions used to determine the embedded value results of SBI Life materially comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 ("Indian Embedded Value Principles"), and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows

being valued in line with the prices of similar cash-flows that are traded on the capital markets;

- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of SBI Life's internal capital target of 180% of the Required Solvency Margin and has been assessed from a shareholders' perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates, and allocation of profit between policyholders and shareholders, are consistent with the projection assumptions, established company practice and local market practice.

WTW has performed high-level reasonableness checks, commensurate to the reporting schedule, on the results of the calculations performed by SBI Life. On the basis of this review, WTW has confirmed that no issues have been discovered that have a material impact on the disclosed embedded value as 31 March 2026, the value of one year's new business written during the period 1 April 2025 to 31 March 2026, the movement in embedded value over 31 March 2025 to 31 March 2026, movement in value of new business over 31 March 2025 to 31 March 2026 and the sensitivity analysis as at 31 March 2026.

Based on an incremental model review for material new products and key model changes incorporated by SBI Life during the year, WTW has confirmed that the model used to prepare the results align with, in all material respects, the intended methodology and assumptions.

In arriving at these conclusions, WTW has relied on data and information provided by SBI Life. This Opinion is made solely to SBI Life in accordance with the terms of WTW's engagement letter dated 17 November 2022. To the fullest extent permitted by applicable law, WTW does not accept or assume any responsibility, duty of care or liability to anyone other than SBI Life for or in connection with its review work, the opinions it has formed or for any statements set forth in this opinion.
