On survival of the Life Assured till the end of the policy term, the Paid-up Sum Assured on maturity plus Accumulated deferred Survival income, if any, and Terminal bonus, if declared, is payable.

$\text{Paid-up Sum Assured on maturity} = \text{Guaranteed Sum Assured on Maturity} * \left(\frac{\text{The total period for which premiums have already been paid}}{\text{The maximum period for which premiums were originally payable}} \right)$

Surrender

The policyholder can surrender the policy at any time during the policy term provided one full year's premiums has been paid. On payment of surrender value, policy will be terminated. The surrender value payable will be higher of Guaranteed Surrender value (GSV) and Special Surrender Value (SSV). Accumulated deferred survival income, if any and interim survival income, if any will also be added to the Surrender value.

The policy acquires Guaranteed Surrender Value only if at least two consecutive years' premiums have been paid.

Guaranteed Surrender Value paid will be GSV factors multiplied by total premiums paid less guaranteed survival income applicable till the date of surrender request is made. The GSV factors, as percentage of total premiums paid, will depend on the policy year in which the surrender request is made. For GSV factors, please refer to the policy document.

Special Surrender Value (SSV) shall become payable after completion of first policy year provided one full policy year's premium(s) has been received.

Special Surrender Value will be non-guaranteed and based on an assessment of the asset share progression at different durations of the policy. This assessment would be based on past financial and demographic experience of the product/group of similar products and likely future experience and will be reviewed from time to time depending on changes in internal and external experience and likely future experience.

The SSV factors and thus the Special Surrender Value (SSV) are not guaranteed and will be reviewed annually based on the prevailing yield on 10 Year G-Sec and underlying experience. However, any change in methodology used to determine the Special Surrender Value (SSV) Factors shall be subject to prior appropriate approval in accordance with IRDAI Regulations. For more details on the surrender benefit, please refer to the policy document

Revival

If premiums are not paid within the grace period and the policy is not surrendered, the policy may be revived for full benefits within a revival period equal to five consecutive complete years from the date of the first unpaid premium while the life assured is still alive.

The revival will be considered on receipt of written application from the policyholder along with the proof of continued insurability of life assured and on payment of all overdue premiums with interest.

The revival will be affected subject to underwriting based on Company's Board approved underwriting policy.

The interest will be charged at a rate declared by the company from time to time. The company policy currently is based on the nominal interest rate per annum and is 250 basis points greater than the benchmark yield of RBI Repo Rate as on 1st April of each of the Financial Year and it will be compounding on a half-yearly basis. The repo rate as on 1st April 2024 is 6.50%.

On revival of a reduced paid-up policy

- a. where the policyholder has opted not to defer the Survival Income, then the incremental Survival Income due during the period the policy was in paid-up status, will not earn any interest and will be paid in lump sum on the date of revival.
- b. where the policyholder has opted to defer the Survival Income, then the incremental Survival Income due during the period the policy was in paid-up status, will not earn any interest and the incremental Survival Income due shall become attached to the policy on the date of revival and will start accumulating from the date of revival till death of the life assured/surrender/maturity of the policy, whichever is earlier or on policyholder request for payment of accumulated survival income, at any point in time.

Bonus

Cash bonus, if any would be declared from 7th policy year onwards as a result of the surplus generated based on the Statutory Valuation carried out at the end of every financial year.

Interim Cash bonus, if any would also be declared from 7th policy year onwards, and will be payable on the policies exiting during the financial year.

Terminal bonus may be declared as per the company's Bonus Policy. Terminal bonus, if declared, would become payable in the policy year when the policy results into a claim either by death, surrender or maturity.

Cash bonus, Interim Cash bonus and Terminal bonus, if declared, would be expressed as a percentage of Basic Sum Assured.

Non-Disclosure

Extract of Section 45 of Insurance Act 1938, as amended from time to time, states:

No policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the policy. A policy of life insurance may be called in question at any time within three years from the date of the policy, on the ground of fraud or on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued. The insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured, the grounds and materials on which such decision is based.

No insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such mis-statement or suppression are within the knowledge of the insurer. In case of fraud, the onus of disproving lies upon the beneficiaries, in case the policyholder is not alive.

In case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the grounds of fraud, the premiums collected on the policy till the date of repudiation shall be paid.

Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.
