Annuity Options Available

The annuity payout amount would vary depending upon the annuity option chosen:

1. Life Annuity (Single Life):

- Life Annuity (Option 1.1): Annuity is payable at constant rate for life of annuitant and ceases immediately on death and the contract terminates.
- Life Annuity with Return of Purchase Price** (Option 1.2): Annuity payable at constant rate for life of annuitant which ceases on death and purchase price is returned to the nominee and the contract terminates.
- Life Annuity with Return of Balance Purchase price# (Option 1.3): Annuity is payable at a constant rate throughout the life of annuitant. On death, the balance purchase price# (which will be equal to the purchase price less sum total of annuity payments already received by the annuitant, if any) will be paid. If this balance is not positive then no death benefit is payable, all future annuity payouts cease immediately and the contract terminates.
- Life Annuity with Annual Simple Increase of 3% (Option 1.4) or 5% (Option 1.5): An increasing annuity is payable throughout the life of the annuitant which is increased by a simple rate of 3% or 5% per annum for each complete policy year, as per the option chosen. - Life Annuity with Certain Period of 10 years (Option 1.6) or 20 years (Option 1.7): Annuity is payable at a constant rate for a fixed period of 10 or 20 years, as per the option exercised; and thereafter the same annuity amount is payable throughout the life of the Annuitant.
