- 7 Individualised Treatment Plan

BENEFITS

SOME OF OUR PARTNERS

OUR SERVICES TOLL FREE NO : 0008000401647

Patient is diagnosed with Cancer or CIS which is covered under Medical Second Opinion

Patient must sign a form consenting to the release of their medical records and details. The doctor will then prepare the relevant patient medical records for MediGuide.

Patient and doctor choose the medical center they wish to use for the Medical Second Opinion from the list of 3 provided.

The Policy Holder / Customer calls MediGuide's local service centre to establish eligibility and then initiates the Medical Second Opinion service through MediGuide

Mediguide will identify three medical centers available to provide the review and gives the names to the patient and doctor.

Within 10 business days of receipt, both the patient and/or doctor will receive a written review from the selected medical center of the original diagnosis and a proposed treatment plan subject to data protection.
