What Other Benefits do I get?

Surrender Value / Paid-Up Value (PUV)

The policy will acquire a Paid-up and/or Surrender value only if premiums have been paid for at least 2 full years.

The Sum Assured payable on death or maturity of a paid up policy, will be reduced Sum Assured. This reduced Sum Assured will be called the Paid-up Sum Assured. Paid-up Sum Assured on death and maturity would be:

$$\text{Paid - up Sum Assured on death} = \text{Sum Assured on death} \times \frac{\text{Number of premiums paid}}{\text{Numbers of premium originally payable}}$$

$$\text{Paid - up Sum Assured on maturity} = \text{Basic sum Assured} \times \frac{\text{Number of premiums paid}}{\text{Numbers of premium originally payable}}$$

In case of Paid-up policies, future guaranteed additions would continue to be accrued but on a proportionately reduced rate. The reduced guaranteed addition rate would be:

$$\text{Reduced guaranteed addition} = \text{Original guaranteed addition} \times \frac{\text{Number of premiums paid}}{\text{Numbers of premium originally payable}}$$

The Paid-up Sum Assured on maturity / death together with accrued Guaranteed Additions would be called as Paid-up value on maturity / death.

If the policy is not subsequently reinstated, this Paid-up value on maturity will be paid on maturity or Paid-up value on death is payable on earlier death of the life assured.

You may terminate Paid-up policy before maturity by surrendering the policy during the policy term for a surrender value.

The Guaranteed Surrender Value (GSV) will be equal to GSV factors multiplied by the premiums paid excluding service tax and cess. The GSV factors for various premium durations are given below:

Policy Year	As percentage of basic premium paid
1 year	0%
2 year	30%
3 year	30%
4-7 years	50%
8-10 years	55%
11-15 years	60%

Surrender value of the accrued Guaranteed Additions would also be added to this GSV. The surrender value of the accrued guaranteed additions is calculated by multiplying the accrued guaranteed additions with guaranteed additions surrender value factors.

The special surrender value would reflect our actual experience and would be determined as per the proxy asset share/Gross Premium Reserve.

Special surrender value will be arrived at by multiplying PUV on maturity with SSV factors. On surrender, the higher of the Non-Guaranteed SSV and the GSV will be paid.

SSV methodology will be reviewed periodically based on our views of the likely future financial/ demographic circumstances and may change subject to prior approval from IRDA.

- **Policy Loans**

In situations of emergency, you may require funds to meet some expenses. To fulfil this need, we allow you to borrow against your policy. Loans will be available after the policy acquires surrender value. The policy loan will be limited to a maximum of 90% of the surrender value. The loan interest rate to be charged will be declared by the company from time to time.

- **Grace Period and Revival Facility**

We offer you 30 days grace period from the premium due date. The policy will remain in-force during grace period and will lapse if no premium is paid at the end of the grace period. A lapsed policy may be revived within 2 years from the date of the first unpaid premium subject to satisfactory proof of insurability as required by the company from time to time.

On revival, the policy will be eligible for the future Guaranteed Additions. Also the due Guaranteed Additions will be added to the policy.

Provided that acceptance by an insurance agent of commission in connection with a policy of life insurance taken out by himself on his own life shall not be deemed to be acceptance of a rebate of premium within the meaning of this sub section if at the time of such acceptance the insurance agent satisfies the prescribed conditions establishing that he is a bona fide insurance agent employed by the insurer.

- (2) Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees.

- **Non-Disclosure**

Extract of Section 45, as amended from time to time:

No policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the policy. A policy of life insurance may be called in question at any time within three years from the date of the policy, on the ground of fraud or on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued. The insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured, the grounds and materials on which such decision is based.

No insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such mis-statement or suppression are within the knowledge of the insurer. In case of fraud, the onus of disproving lies upon the beneficiaries, in case the policyholder is not alive.

In case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the grounds of fraud, the premiums collected on the policy till the date of repudiation shall be paid.

Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

For complete details of the section and the definition of 'date of policy', please refer Section 45 of the Insurance Act, 1938, as amended from time to time.
